

THEY'RE BACK... AND THEY'LL CUT YOUR PAY TO ENRICH THE 1 PERCENT

**'RIGHT TO
WORK'
IS WRONG
FOR OHIO**

The same backers of SB 5 have hatched another scheme to silence workers. They're trying to get so-called "right to work" legislation on the ballot this November, and they're collecting signatures for it right now.

These corporate cronies are smart. They've given this ballot initiative a name that will certainly trick a lot of people: The Workplace Freedom Amendment. In truth, it will do nothing more than give greedy CEOs the freedom to cut the wages and benefits of Ohio's hardworking middle class.

As if finding a job wasn't hard enough already, seven of the 10 states with the highest unemployment rates in the country are "right to work" states. (EPI Briefing Paper #326, 9/15/11)

Last November, more than 2 million Ohioans went to the polls to stop extreme anti-worker legislation. You'd think politicians and corporate cronies would have learned a lesson. But they didn't.
