Presents

Lake Erie Island-Hopping Cruise

Featuring stops at

Kelley's Island and Put-In-Bay

Thursday, August 29, 2024

This tour includes stops at both Kelley's Island and Put-In-Bay on South Bass Island.

Here's a full day of fun and activities as we depart Jackson Street Dock for a 40-mile all-day "Island Hopping Cruise" aboard the Goodtime I. Take in the beauty of Lake Erie and enjoy live narration of the sights along the way. You will cruise past famous Cedar Point – the top-rated amusement park, historic Johnson's Island and Marblehead Lighthouse – the oldest operating lighthouse on the great lakes.

Kelley's Island is home to both Inscription Rock and the Glacial Grooves, these are the largest grooves in the world, scoured into solid limestone bedrock about 18,000 years ago by the great ice sheet which covered a portion of North America. Today, a trough that is 400-feet long, 35-feet wide and up to 10-feet deep remains after the ice, which was hundreds of feet thick, carved out this area and the entire Lake Erie basin. Marine fossils have been discovered that date back 350 to 400 million years. You can generally rent a golf cart upon our arrival at Kelley's Island or you can enjoy the fresh breezes in this enchanting village.

An onboard picnic-style luncheon will be provided as you cruise to Put-In-Bay (on South Bass Island) as we depart from Kelly's Island. Upon arrival, there will be a one-hour tram tour followed by time on your own to visit the 352-foot Perry Monument and the new Perry's Victory Visitors Center to see the impressive video "War of 1812 and the Battle of Lake Erie" Don't forget your National Parks card to get in free. Also, enjoy the other attractions, wineries and (of course) the ever-popular fudge shops. You'll even have time to visit the Boardwalk, home of some of the area's best lobster bisque.
